	3	Organizational agility SIG Discussed training content and the case studies, and the preparations are ongoing for PMAJ Special Lecture "Improving Organizational Agility for DX Success" ~PM professionals' efforts to become a company that adapts to change ~" on December 9.
	4	Load mapping SIG •The recording of the PM Symposium 2022 has been completed, and future activities are being discussed, with specific output goals, such as

			reflecting the results in the P2M Guidebook under review and publishing a book, being considered as the focus of activities.
5	Change Management SIG		<ul style="list-style-type: none"> ▪ Define standard change management processes for program execution and complete the tools and templates necessary for change management. ▪ Defined a change agility organizational maturity model, conducted research and analysis, and validated the model. ▪ Writing a book on change management published by PMAJ, and plans to complete a draft of the manuscript by the end of December 2022.
6	Global PM SIG		<ul style="list-style-type: none"> ▪ In the current term, discussions are underway with a focus on formulating a revision plan for the English version of the PMAJ website. ▪ The revision of the existing website has been completed so far. (the further revisions are under consideration). ▪ Discussions for the necessary items and contents of the English homepage are ongoing, and finalize the revision plan by the end of this term. ▪ Mr. Miura (manager of PMAJ) joined GAPPS as a Board Member.
7	New Business Program Management SIG		<ul style="list-style-type: none"> ▪ The overall configuration of the output is completed. ▪ As for the contents, "Factors for success and failure of new business" have been completed, and proposals for "New business development process" and "New business development project unit and the program structure" have been prepared. ▪ The overall completion schedule has been significantly delayed, and it is scheduled to be completed in December. ▪ We could not conduct a questionnaire for PMAJ members, and the schedule is not yet fixed. ▪ Two new members from the TIS INTEC Group have joined as a complement to the IT field. ▪ We plan to participate in the P2M revision committee next month and to input the results so far
8	PMDX-AWP		<p>Continue meeting every Friday.</p> <ul style="list-style-type: none"> ▪ Creating a change path diagram for setting up a roadmap for activities. ▪ Continuing preparations aimed at acquiring corporate status (general incorporated association). ▪ It was proposed to treat BIM as a research theme of this SIG, and JGC announced the latest situation of BIM, but it was decided to start by exchanging information between the BIM staff of member companies. ▪ JGC announced he made presentation at AWP Conference 2022 in April: in Europe. ▪ The four companies jointly made a presentation for AWP at PMAJ regular meeting in June. The number of participants was larger than expected, indicating the high level of interest in AWP. ▪ There was a member company that showed interest in introducing AWP, but it did not lead to consideration. It is the situation of domestic companies that is necessary to start from the level of digitization. ▪ A civil engineer from Kajima Corporation participated from August 5th. (Participation on an individual basis first) <p>On August 19, Mr. Hayashi reported a business trip to CII and Australia.</p>
9	PM Know-how Succession Study Group SIG		<ul style="list-style-type: none"> ▪ For next year, the goal is to rearrange "Monogatari (Story of PM)" and make plans for publication so that it can be widely released.

	9	PM Know-how Succession Study Group SIG	<ul style="list-style-type: none"> -Currently we have read the 6 "Monogatari (Story of PM)" limited to our study group, and the results of the peer review are shared at the monthly regular meeting and the opinions are exchanged. -At the regular meeting on October 17, we started the study to make prototype of "Takumi no PM (Craft like PM)" which can be open to public, in addition to continuing peer review of "Monogatari (Story of PM)". -Currently, there are 21 members, but we are still looking for new members.
	10	Human resource development study group for value-creating project management SIG	<ul style="list-style-type: none"> -Recruitment started on the homepage
